

Dimension Type	Specifications
Standard Beam Heights	100 mm (light duty), 200 mm (medium duty), 300 mm (heavy duty)
Flange Width Options	80 mm, 100 mm, 120 mm, 150 mm (paired with beam height for load capacity)
Standard Lengths	3 m, 6 m, 12 m Customizable: Up to 18 m
Web Thickness	8 mm (100 mm height), 10 mm (200 mm height), 12 mm (300 mm height)
Tolerance	Height: ± 1 mm Length: ± 5 mm Flange width: ± 2 mm
Weight per Meter	100 mm height: 2.5 kg/m 200 mm height: 5.0 kg/m 300 mm height: 8.0 kg/m
Surface Finish	Smooth (default) or grit-textured for enhanced bonding in composite structures
Packaging	Stacked on pallets with protective wrapping Custom crating for long beams
